Certifications

- Autodesk Certified Professional
- ACP AutoCAD 2D/3D - ACP Revit BIM
- Epicode - Full Stack Developer

Software

- AutoCAD, BIM, GIS & ACCA
- Modellazione 3D - Revit, Sketchup, Blender
- Motore Render - Blender & Enscape
- Pacchetto Adobe, office
- Altri - Rhino, Archicad(base)

Digital skills

- Html5, Css & Bootstrap
- React, Redux & Javascript
- Next, Typescript & Tailwind Css
- Springboot & Java
- PostgreSQL
- Postman - Swagger

Languages

Italiano: native

Inglese: basic

CAD/BIM Technical Drafter • 3D Modeler • Design Support

I am an operational CAD/BIM technician with an architectural background and advanced digital skills, 3D modeling, and graphic rendering. Experienced in collaborating with technical studios and supporting architectural design through the production of technical drawings, three-dimensional modeling, surveys, and project documentation management.

Cross-disciplinary competencies in digital and web development, with particular focus on management systems and technology tools applied to design.

WORK EXPERIENCE

Technical Collaborator — Arch. Zaccheddu

- Architectural design support
- Production of 2D CAD drawings
- 3D architectural modeling
- Graphic rendering and drawing sheet updates
- Collaboration in technical documentation management

Technical Collaborator —

ESSECIQUADRO ASSOCIATI, Architects & Engineers

- Operational support to multidisciplinary professional studios
- Collaboration in the production of technical drawings
- Modeling and organization of project files
- Coordination and management of technical support activities
- Use of CAD/BIM software and 3D modeling

Technical Consultant — Tecnorete

- Client and supplier relationship management
- Technical and real estate needs analysis
- Organizational and documentary support
- Development of communication and problem-solving skills

Pixel Architecture Studio

- Support for studio activities and design
- 3D modeling and architectural visualization
- Collaboration in the preparation of graphic drawings
- Learning professional technical workflows

EDUCATION

Full-Stack Developer Bootcamp — EPICODE Institute of Technology

Intensive bootcamp with over 800 hours of practical training focused on frontend, backend, and database development.

Bachelor's Degree in Architecture — University of Sassari

162 CFU completed.

High School Diploma — Arts (Architecture & Environment)

Liceo Artistico Filippo Figari

TECHNICAL PROJECTS & PORTFOLIO

TECHNICAL SKILLS

CAD • BIM • 3D Modeling

- AutoCAD 2D
- Autodesk Revit
- SketchUp
- Blender
- 3D architectural modeling
- Production of technical and executive drawings
- Graphic rendering of surveys
- BIM modeling (basic/intermediate)
- Construction details
- Architectural rendering

Quantity Surveying • Surveys • Technical Support

- Metric quantity surveying
- ACCA Primus
- Architectural surveys
- Reading technical drawings
- Technical documentation management
- Architectural design support
- Basic MEP graphic support
